|---|---|---|
| COVERED HVAC UNITS | SCHEDULED VISITS / YEAR | FULL PM VISITS / YEAR |

O'Brien AC & Construction Services, LLC | (954) 205-1381

OB-2026-0930-MARGATE-PM | Issued September 30, 2026 | Valid 30 days

Prepared for Facilities / Management | 4901 NW 17th Way, Suite 408, Fort Lauderdale, FL 33309

# A disciplined maintenance program

18 units. Filter service every two months. Full preventive maintenance every six months. Full PM coincides with two filter visits, giving six site visits annually.

| Round | Timing | Filter service | Preventive maintenance |
|---|---|---|---|
| 1 | Month 1 | Replace / service filters | FULL PM VISIT |
| 2 | Month 3 | Replace / service filters | Filter service only |
| 3 | Month 5 | Replace / service filters | Filter service only |
| 4 | Month 7 | Replace / service filters | FULL PM VISIT |
| 5 | Month 9 | Replace / service filters | Filter service only |
| 6 | Month 11 | Replace / service filters | Filter service only |

## EACH FULL PREVENTIVE-MAINTENANCE VISIT

Inspect overall condition and visible deficiencies; filters, blower section, belts / drives, motors, bearings and accessible moving components. Check thermostat / controls, contactors, capacitors, disconnects, wiring, safeties and visible electrical condition. Measure voltage / amperage where practical and note abnormal readings.

## COILS, CONDENSATE & PERFORMANCE

Clean both evaporator and condenser coils using equipment-appropriate methods. Clean the condensate drain pan. Flush / treat condensate drain lines; inspect pans, traps and accessible overflow protection. Check operating temperatures / temperature split and cooling performance. Review refrigerant condition when gauges are warranted; refrigerant, leak repairs and parts are excluded. Provide a service report with findings and recommendations.

## FILTER SERVICE EVERY TWO MONTHS

Provide and install standard replacement filters suitable for existing racks, based on an average of six per unit: approximately 108 per round and 648 annually. Verify actual sizes and quantities before ordering. Clean and reinstall washable ductless / mini-split filters at the same interval unless disposable media is installed. Note abnormal loading, moisture, bypass or damaged racks. Specialty, HEPA, carbon, custom fabricated and non-standard filtration require written adjustment. Routine cleaning of both coils and the drain pan is included; coil removal, dismantling, severely fouled-coil restoration and corrective repairs are additional.

# One portfolio. One blended rate.

A blended base rate of $1,950.00 per unit per year before discounts, across equipment ranging from 1 ton to 17.5 tons. Existing inventory retained for reference.

| Unit | Brand | Nominal size | Base / year | Base / month |
|---|---|---|---|---|
| 1 | Daikin | 15 ton | $1,950.00 | $162.50 |
| 2 | Trane | 15 ton | $1,950.00 | $162.50 |
| 3 | Trane | 12.5 ton | $1,950.00 | $162.50 |
| 4 | Trane | 7.5 ton | $1,950.00 | $162.50 |
| 5 | Trane | 10 ton | $1,950.00 | $162.50 |
| 6 | Daikin mini split | 1 ton | $1,950.00 | $162.50 |
| 7 | Trane | 7.5 ton | $1,950.00 | $162.50 |
| 8 | Lennox | 15 ton | $1,950.00 | $162.50 |
| 9 | Lennox | 10 ton | $1,950.00 | $162.50 |
| 10 | Lennox | 7.5 ton | $1,950.00 | $162.50 |
| 11 | Lennox | 7.5 ton | $1,950.00 | $162.50 |
| 12 | Lennox | 17.5 ton | $1,950.00 | $162.50 |
| 13 | Trane | 3 ton | $1,950.00 | $162.50 |
| 14 | Lennox | 15 ton | $1,950.00 | $162.50 |
| 15 | Lennox | 12.5 ton | $1,950.00 | $162.50 |
| 16 | Daikin | 3 ton | $1,950.00 | $162.50 |
| 17 | Lennox | 12.5 ton | $1,950.00 | $162.50 |
| 18 | Lennox | 12.5 ton | $1,950.00 | $162.50 |

## BASE PRICE BREAKDOWN

$24,300.00 annual maintenance + $10,800.00 coil and pan cleaning ($300.00 per unit x 18 units x two full visits) = $35,100.00 before discounts. Coil and pan cleaning adds $600.00 per unit annually.

| Covered units | Base annual site price | Base monthly equivalent |
|---|---|---|
| 18 | $35,100.00 | $2,925.00 |

The one-year customer price after its 3% discount is $34,047.00. Monthly figures are budgeting equivalents unless monthly billing is agreed in writing.

# Correct drainage. Protect the roof.

Ten identified drain-line problem areas. Corrective work is a separate, one-time scope and is not reduced by maintenance discounts.

| Corrective scope | Quantity / rate | Amount |
|---|---|---|
| Drain-line corrective service - identified problem areas | 10 x $300.00 | $3,000.00 |
| TOTAL ONE-TIME DRAIN CORRECTIONS | | $3,000.00 |

## ACCESSIBLE DRAIN-LINE CORRECTIVE SERVICE

Clear and flush the affected line and verify free flow. Vacuum / blow out accessible restrictions and remove accumulated debris where serviceable. Inspect accessible traps, fittings, pitch, supports and discharge points; make minor accessible corrections within the stated scope. Inspect the associated drain pan and visible overflow protection where accessible. Run the unit as conditions allow and confirm drainage after service.

## CORRECTIVE-SCOPE LIMITS

The $300.00 rate covers normal accessible drain-line corrective service. Concealed piping replacement, extensive PVC reconstruction, roof repair, drain-pan replacement, structural work and conditions discovered after opening the system are excluded and require written authorization.

## COORDINATION WITH THE CONDITION REPORT

Ten drain-line problem areas were identified in the supplied roof assessment. Drain corrections and recurring maintenance are separately selectable. The original inspection pages accompany this proposal behind a matching condition-report cover.

# Clear contract choices.

Choose one, two or five years. Discounts apply each year to recurring maintenance. One-time drain correction remains $3,000.00; discounts do not stack.

| Base pricing reference | Amount |
|---|---|
| Covered HVAC units | 18 |
| Base annual rate per unit | $1,950.00 |
| Base annual site price before discounts | $35,100.00 |

Base: $24,300.00 maintenance + $10,800.00 coil and pan cleaning. Cleaning is $300.00 per unit per full visit, twice annually, and is included before discounts.

| Term / discount | Annual site price | Monthly eq. | Per unit / year |
|---|---|---|---|
| 1 year / 3% | $34,047.00 | $2,837.25 | $1,891.50 |
| 2 years / 6% | $32,994.00 | $2,749.50 | $1,833.00 |
| 5 years / 8% | $32,292.00 | $2,691.00 | $1,794.00 |

| Term | Maintenance term total* | Separate one-time drain fix |
|---|---|---|
| 1 year | $34,047.00 | $3,000.00 |
| 2 years | $65,988.00 | $3,000.00 |
| 5 years | $161,460.00 | $3,000.00 |

*Term totals use current annual pricing. Five-year totals are projections before any agreed annual cost adjustment. Monthly amounts are budgeting equivalents unless monthly billing is agreed in writing.

## DISCOUNT RULES

No additional dealership or portfolio discount is included. The 3%, 6% or 8% term discount applies to the recurring maintenance base, including the stated coil and pan cleaning charge. Drain-line corrective work remains separate.

# Terms & service boundaries

Revised commercial terms retained from the newly supplied proposal.

## VALIDITY & ACCESS

Proposal validity remains 30 days from September 30, 2026. Pricing covers the stated 18-unit inventory, normal access and service during regular business hours.

## INCLUDED SERVICE & FILTERS

Standard filters, routine evaporator and condenser coil cleaning, and drain pan cleaning are included as described. Changes in filter quantity, media or access require written adjustment. The plan is preventive service, not a full-parts or repair-labor agreement.

## EXCLUDED WORK

Corrective repairs, parts, refrigerant, leak repair, coil replacement, dismantling, severely fouled-coil restoration, ductwork, electrical upgrades, roofing, structural work and after-hours service are additional.

## EQUIPMENT CHANGES & CONCEALED CONDITIONS

Coverage may transfer to a direct replacement unit at the same location, subject to review of filter requirements and access. Concealed conditions discovered during drain correction require a written change order.

## TERM COMPLETION

Multi-year discounts assume completion of the signed term. Early termination may require reconciliation of discounts against the base rate for services already provided. No additional dealership or portfolio discount is included.

## FIVE-YEAR COST ADJUSTMENT

At each anniversary, documented labor and filter cost increases may be reflected in an adjusted base rate by written agreement before renewal-year service. The 8% discount remains applicable to the adjusted base rate.

## GOVERNING LAW

The agreement is governed by Florida law; venue for disputes is Broward County, Florida.

# Selection & acceptance

Select the maintenance term and whether to include one-time drain corrections. Revised pricing and discount options supersede the earlier proposal options.

☐ **Drain-line corrective work only**
$3,000.00 one-time

☐ **1-year maintenance - 3% discount**
$34,047.00 annually | $2,837.25 monthly equivalent

☐ **2-year maintenance - 6% discount**
$32,994.00 annually | $65,988.00 maintenance term total

☐ **5-year maintenance - 8% discount**
$32,292.00 initially per year | $161,460.00 projected maintenance total*

*Five-year prices are subject to the annual cost-adjustment provision. Quoted term totals assume no adjustments. One-time drain corrections are additional to maintenance totals.

**Selected annual maintenance:** $_____
**Selected maintenance term total:** $_____
**Include one-time drain corrections:** Yes _____ No _____
